

HAI MUSIC GATEWAY

The HAI Music Gateway opens up your music collection to the rest of the home. A music server/renderer with three independent stereo channels, the Music Gateway uses an HAI IP OmniTouch Touchscreen (5.7e/10p) for selecting music.

HAI PART NUMBER 844A00-1

FEATURES

- Three independent stereo channels.

- Connect one or more stereo outputs to Hi-Fi by HAI, or another whole house audio system.

- Designed to be installed in a structured wiring enclosure.

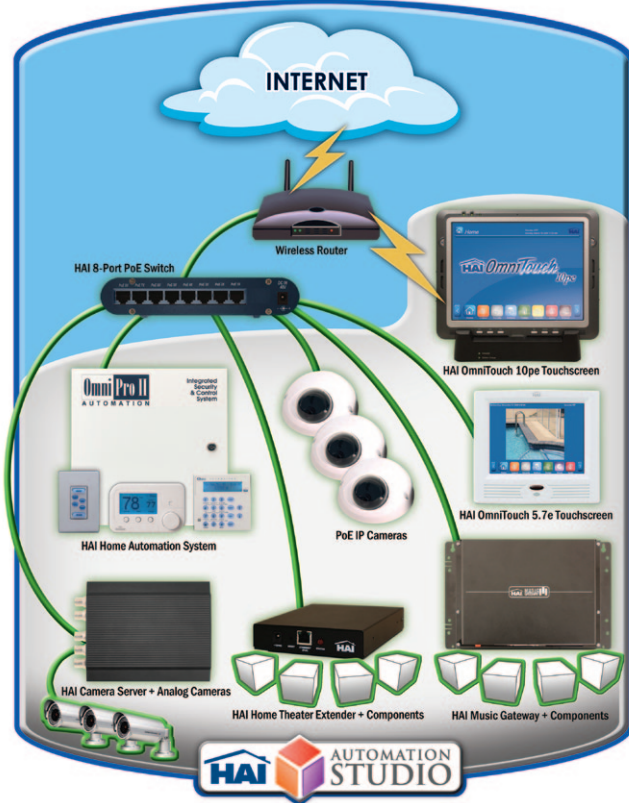

- Utilizes IP-based Touchscreens (OmniTouch 5.7e, 10p, 10pe)

- Plays audio off the built-in hard drive or can play off a network share.

- Includes HAI's WL3 software which allows remote access via Internet or mobile device such as an iPhone.

THE HAI IP-BASED PRODUCT SUITE

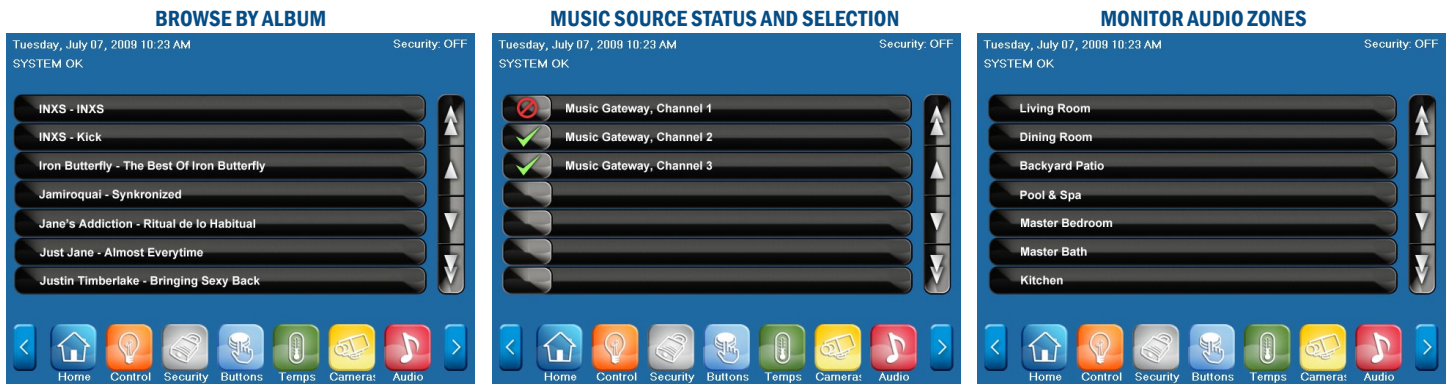

Selections can be made by artist, title, genre, or playlist. Album art and other meta-data can even be viewed. Where a Hi-Fi by HAI or other multi-room audio system is available, the Music Gateway can be fully integrated.

And there is a reason HAI calls it the *Music Gateway*: included is HAI's advanced WL3 software for home control and IP camera integration. With WL3, homeowners can access not only their music, but their entire home automation system. Users can access via mobile devices such as the iPhone™, BlackBerry™, Windows™ Phones, Android™ Phones, or any web browser. With WL3, record and play videos from IP cameras based on system events including motion, alarm, and door openings. The Music Gateway is the perfect access point for all your needs.

Entertainment use is just as convenient. Easily set up and load music to the Music Gateway from a computer. Store thousands of song titles on the 500GB internal hard drive. Album cover art is also automatically loaded. Control song selection using the IP-based OmniTouch 10p or OmniTouch 5.7e Touchscreens.
