

Product Specifications

BC600 IN-CEILING SPEAKER

Description:

The Builder Series BC600 in-ceiling speaker is designed to be mounted in the ceiling and used for stereo applications such as multi-room audio. The BC600 is a perfect solution for spec homes, entry level homes, MDU projects or any price sensitive installation. The BC600 is an excellent combination of super performance matched with compact dimensions as well as an extremely sturdy ABS frame and baffle with a rigid steel grille. The shape of the cone for the BC600 6½-inch woofer made from polypropylene has been optimized for perfect sound dispersion. The ¾-inch mylar tweeter remains free of distortion or edginess at even very high frequencies. Both the grille and frame can easily be painted in any color for a perfect integration into any decor. Furthermore, pre-construction brackets are available to better facilitate installations of the speaker.

Applications:

- Two-channel Audio
- Multi-room Audio
- Home Theater Rear Channels
- Pools, Spas, Hot Tub Rooms, etc
- Outdoor Audio (with no extended contact with water)
