

# LANDSCAPE SPEAKERS

SC-OG-6 | SC-OG-4

Bold Outdoor  
Performance  
with Long-Lasting  
Durability

SpeakerCraft Landscape Speakers bring the bold audio performance of our architectural speakers to outdoor spaces of all sizes.

With enclosures build from UV stable fiberglass-reinforced ABS and weatherproof acoustic components, the SpeakerCraft Landscape speakers are built to last and are able to withstand even the harshest climates.

The satellite speakers, available with 4" and 6" drivers, feature a compact form factor to blend into any outdoor space. 110-degrees of sound dispersion and flexibility of both 8 ohm or 70V/100V configuration make it easy to deliver the SpeakerCraft signature sound in any size backyard.

**SpeakerCraft®**

## Features

**Reliability** - Rugged and weatherproof fiberglass reinforced ABS enclosures, ensure years of reliable performance, strong enough to stand up to outdoor garden equipment, including weed whackers.

**Big Sound** - 110-degree wide audio dispersion from a 2-way design brings exceptional clarity and ensures better coverage than traditional outdoor speakers.

**Versatile Installation** - Low and high impedance capabilities adds flexibility to scale systems to fit any-size outdoor space while adjustable 70V/100V tap setting allows individual volume control of every speaker.

**Mounting Options** - Quick connect accessories, sold separately, make ground, surface and conduit mounting is made easy and reliable.
